Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances. The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

Prospective investors considering acquiring any Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after carefully considering the suitability of the Notes in light of their particular circumstances (including without limitation their own financial circumstances and investment objectives and the impact the Notes will have on their overall investment portfolio) and the information contained in the Offering Memorandum and this Pricing Supplement. Prospective investors should consider carefully the risk factors set out under "*Risk Factors*" in the Offering Memorandum referred to below and the additional risk factors set out in Annex 3 hereto.

TERMS FOR EQUITY LINKED NOTES/INDEX LINKED NOTES/FUND LINKED NOTES/MULTI-UNDERLYING LINKED NOTES

In respect of Series 1171 only, the Terms for Equity Linked Notes/Index Linked Notes/Fund Linked Notes/Multi-Underlying Linked Notes set out in the Offering Memorandum are amended as set out below.

The following definitions shall be deleted and replaced as follows:

"Disrupted Day" in relation to a Fund Interest, any of the Fund, any Fund Service Provider or any other party acting on behalf of the Fund fails for any reason to calculate and publish the NAV per Fund Interest on any date scheduled for the determination of the valuation of the Fund Interests.

"Valuation Date" means, for purposes of Term 2 (*Disrupted Days*) only, each Strategy Calculation Date and the Final Redemption Valuation Date;

In respect of Series 1171 only, Term 2.1 of the Terms for Equity Linked Notes/Index Linked Notes/Fund Linked Notes/Multi-Underlying Linked Notes shall be deleted and replaced as follows:

2. Disrupted Days

2.1 If the Calculation Agent determines that the Strike Date or any Valuation Date is a Disrupted Day in respect to any Fund Interest in the Basket comprising the Underlying, then the Strike Date or such Valuation Date shall be the first succeeding Scheduled Valuation Day which is not a Disrupted Day in relation to any Fund Interest in the Basket comprising the Underlying, and on such date the Fund Value for each Fund Interest shall be determined as follows:

- (a) in relation to each Fund Interest for which the scheduled Strike Date or Valuation Date was not a Disrupted Day, the Fund Value on such date, and
- (b) in relation to each Fund Interest for which the scheduled Strike Date or Valuation Date was a Disrupted Day, the Fund Value on the next following Scheduled Valuation Date which was not a Disrupted Day in relation to such Fund Interest,

provided that if each of the eight Scheduled Valuation Days immediately following the original date are Disrupted Days in respect of one or more of the Fund Interests in the Basket comprising the Underlying that eighth Scheduled Valuation Day shall be deemed to be the Strike Date or such Valuation Date and in respect of any Fund Interest in relation to which the Calculation Agent has been unable to determine a Fund Value in accordance with paragraphs (a) or (b) above, the Calculation Agent shall determine the Fund Value for such Fund Interest on such eighth Scheduled Valuation Day in good faith and a commercially reasonable manner and taking into account such factors as it, in its absolute discretion, deems relevant.

**ANNEX 3
ADDITIONAL RISK FACTORS**

In addition to the risk factors set out in the Offering Memorandum, Investors should be aware of the following in relation to the Series 1171.

In the event of a market downturn accompanied by low volatility, the strategy return will have a leveraged exposure to the Underlying. In such circumstances, if the Underlying performs negatively, an investor's exposure to such negative performance will be greater, and there is a higher risk that investors may lose some or all of their initial investment.

In the event of an increasing market accompanied by high volatility, the strategy return will have a lower exposure to the Underlying. In such circumstances, if the Underlying performs positively, an investor's exposure to such upside performance will be limited. In such circumstance investors may receive a lower return than they would otherwise have received.

Redemption amounts (including any early redemption amounts) payable in relation to the Notes may be subject to an FX Factor, being a multiplication factor based on any change in the EURSEK exchange rate over the life of the Note. Where such multiplication factor is less than 100 per cent., any such redemption amount may be reduced. In these circumstances investors may receive a lower return than they would otherwise have received.
